

Easter lol – shared by a follower

A guy and his girlfriend were barreling down the highway when WHAM, They hit something.

They jumped out of the car and discovered a large rabbit with an Easter basket and eggs scattered all around.

The guy exclaimed “Oh darn, I’ve killed the Easter bunny.”

His girlfriend rushed back to the car, and returned and sprayed the rabbit with an aerosol can.

The rabbit jumped up, waved, gathered up the basket and eggs, hopped off while still waving.

“What did you spray him with?”

“It’s just hair spray.” The girlfriend said.

“See, it says right here, *“Revives Dead Hair and Adds Permanent Wave.”*”
