

## Dr. Amanda Peltier Biography

Dr. Peltier is a professor at Vanderbilt University Medical Center. Dr. Peltier obtained her medical degree from the Ohio State University and completed her residency training in Neurology at the University of Michigan. She completed a Master's Degree in Clinical Research Design and Statistical Analysis, and has extensive experience in conduction of both multicenter and investigator initiated clinical research. She completed a neuromuscular fellowship under the mentorship of Dr. Eva Feldman, with specific training in EMG, skin biopsy, and autonomic testing. She is board certified in neuromuscular medicine (2008). Dr. Peltier has focused her research efforts on identifying improved biomarkers for therapeutic clinical trials in polyneuropathy and other neuromuscular, and autonomic disorders. She has specific expertise in assessment and evaluation of peripheral neuropathies and autonomic disorders. She is the fellowship director for the neuromuscular program at Vanderbilt University and a member of the Vanderbilt Autonomic Disorders Center and the Vanderbilt Amyloid Multidisciplinary Program. Dr. Peltier is also a member of the American Autonomic Society Board and International Diabetic Neuropathy Consortium Board. She is the division chief of Neuromuscular Medicine in the VUMC Neurology department. Dr. Peltier is the MDA/ALS clinic director and the site PI for ALS clinical trials at VUMC.
